Network – placing text on side panels and podium

Network 66+68+68+68+66 cm panels

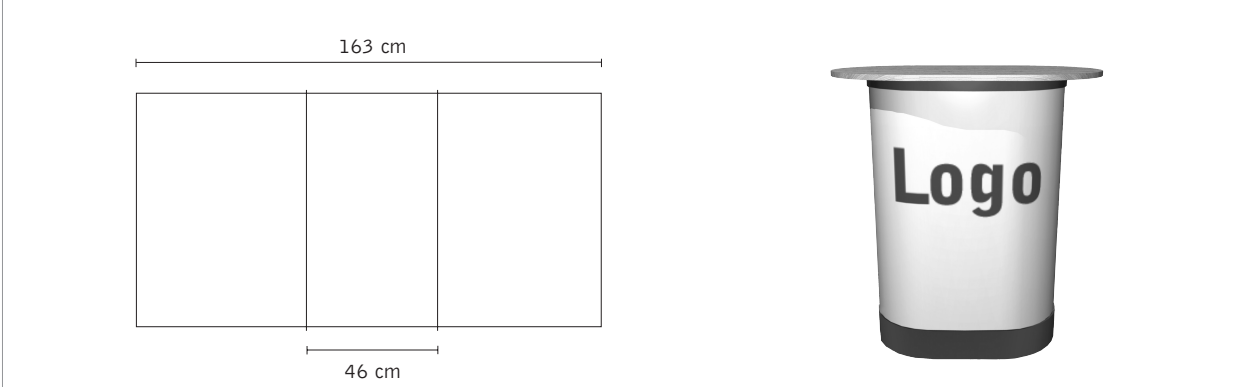

The diagram shows a layout of five panels. The two outer panels are labeled 'Side panel' and are 66 cm wide. The three inner panels are labeled 'Center panels' and are 68 cm wide each. A 33 cm dimension is shown for the left side panel, and a 25 cm dimension is shown for the right side panel. A 3D rendering to the right shows a curved panel with 'side panel' text on the left and right edges.

If you would like the text so it is visible from the side and partially on the front place the text in the centre.

To be able to read the full text when standing in front of the Network position it within 25 cm from the edge of the center panels.

All-in-one podium 163x82 cm panel

The diagram shows a rectangular panel with a total width of 163 cm. A 46 cm dimension is shown for the width of the central area. A 3D rendering to the right shows a cylindrical podium with a 'Logo' on the front.

To be able to view the logo/image fully from the front, place it in the center of the panel at 46 cm width.
